MARKETS

STOCKS AND BONDS

New York Financial Review.

NEW YORK, Oct. 8.—Completion of the fifth consecutive week of daily operations during the year 1916, from Aug. 1 to Sept. 1, 1,000,000 to more than 1,000,000 shares finds the stock market still in ferment and rebounding notwithstanding factors calculated to impair values.

Chief among these was the report that peace overtures would soon be inaugurated by the central powers. This was caused by the central powers, a very general adjustment at one or less cost to the bourses.

On the constructive side the most noteworthy feature of the week was the large and steady array of remarkable statements of earnings submitted by leading rail systems.

Weekly Iron and Steel Review.

NEW YORK, Oct. 8.—Enormous sales of iron have been made since October 1, with prices advancing to \$125 per ton. Upward of 500,000 tons were placed in New York during the week, and for 10,000 cars have been sold and inquiries are well as for 115 locomotives.

Some supplementary rail orders have been placed and inquiries for export tonnage more are in progress. The pressure for steel plates is phenomenal. Orders for 100,000 tons more for pipe lines and for boats have been placed and inquiries made for 100,000 more.

COTTON

New Orleans Cotton Review.

NEW ORLEANS, Oct. 8.—New high levels for the season gain were reached in the cotton market here last week. Monday brought the most active trading in several weeks and prices rose nearly a cent a pound as the result of the government's decision to re-open the market for 50,000 bales of surplus cotton. The ginning record for the first week of October was 4,062,901 bales to September 25, the largest on record, were ignored, as a bearish influence.

Late in the week the increased export movement, that picking was nearing completion over a large area, the claim of a better seed demand in the interior, large mill takings and reports of the beginning of a holding movement among buyers, were factors calculated to bring the highest prices, with a rise Saturday when the active months were 105 to 110 points, or well over \$5 a bale above the level of the previous week's close. Liquidation in recent profits was close, and the market closed for a while and brought about a minor reaction, but the close for the week was at a net gain of 104 to 105 points.

This week the trade will watch for any further development in the holding movement, which is said to have as its object the realization of 20 cents a pound, basis mid-month, for the remainder of the crop. The export movement also will be closely followed.

New York Cotton Goods.

NEW YORK, Oct. 8.—Cotton goods markets have been strong and active and prices advanced to new and unprecedented levels. Some of the large lines of parcels for spring were sold up and with them the cotton and prices evened. Blended cottons also made sensational. Bleached cottons are up half a cent a yard. Fancy tickings, lace and curtains, were sold at a gain of 10 to 15 cents a yard in some instances a yard more than they were in 1907. Cotton duck is selling at the full list price at first hands, in several instances. The figures show that prime cotton and cotton fabrics are up 10 to 15 cents since the first of the new cotton having advanced in the meantime a little over a third. Jobbers and retailers are active and advance sales for spring delivery are far ahead of year ago.

Current conditions are favorable. Print cloth 28 inches \$4.64^{1/2} 4^{1/2}; 64x60^{1/2} 4^{1/2} to 5^{1/2} inches \$4.64^{1/2} 7^{1/2}; brown sheeting, southern standards, 10^{1/2} to 12^{1/2} denims 28 inches \$4.64^{1/2} 10^{1/2}; 28x36^{1/2} 12^{1/2} denims 28 inches \$4.64^{1/2} 12^{1/2}; 28x36^{1/2} 14^{1/2} denims 28 inches \$4.64^{1/2} 14^{1/2}.

Joyous Tidings.

"Charley, dear," said young Mrs. Torkins, "I have good news."

"What is it?"

The bank sent me word that my account is overdrawn. I looked in the dynamy book and found that 'over-drawn' is the same as 'exaggerated.'
